Hello Everyone-

We are moving ahead and are planning on starting the Phase 3 maintenance and monitoring surveys next week. I am waiting on the US EPA, LOSC and RP to approve of this Phase 3 document. Please reply back to the group regarding your approval so we can get this document finalized.

Subject: Phase III monitoring and maintenance & comments document

UC, we have received and incorporated comments from all of the identified stakeholders. The attached *Phase III monitoring and maintenance* document (dated 17 July) is for your consideration and ideally your signatures. To make this review easier, I have included two versions of the Phase III document (one with changes highlighted and one without).

Also attached is the *Phase III comments* document where all written comments that have been provided to me were captured. Responses were developed to address the comments provided. In some cases no comments were necessary. But, there were many comments which led to changes to the *Phase III monitoring and maintenance* document.

If you have any questions, please let me know.

Thanks, Tom
